

Invitation

Technical Seminar

Technical Seminar Hydraulic Basic and Modelling

VAG and Econosto are pleased to announce the new technical seminar.

Dates for the seminar:

5-6-7 April (KW 14) | 21-22-23 June (KW 25) | 27-28-29 September (KW 39)

[Register here!](#)

Course Instructor: Dr. Raul Trujillo, VAG-Armaturen GmbH

Model-based simulation is a method for mathematically approximating the behavior of real water distribution systems. To effectively utilize the capabilities of distribution system simulation software and interpret the results produced, the engineer or modeler must understand the basic mathematical principles involved. This seminar reviews the basic principles of Hydraulics and Modelling.

Program

Day 1

- 20.00 Welcome drink in hotel bar
- 20.30 Meet and greet seminar participants

Day 2

- 9.00 Introduction to the world of VAG
- 9.15 Theory: Basics of Hydraulics
- 11.00 Coffee Break
- 11.10 Theory
- 12.00 Lunch break
- 13.00 Theory
- 15.00 Practical Experiment: Cavitation
- 17:00 End of day 2

Evening Program

- 18.30 Transfer to Speyer
- 19.30 Diner
- 22.30 Transfer to Hotel

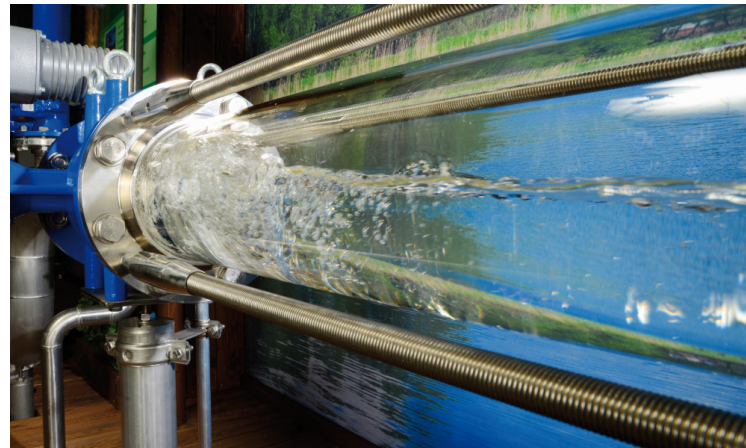

Day 3

- 9.00 Summary theory day 2
- 9.15 Practical calculations with EPANET
- 11.00 Coffee break
- 11.10 Theory
- 12.00 End evaluation
- 12.20 Lunch

Location is VAG-Armaturen GmbH, Mannheim, Germany

Travelling is on participants own expense, hotel will be arranged by the organization. Evening program is included in seminar price. Each participant will receive a seminar certificate and handouts.

Price per participant (including Hotel stay) is € 895,- excl. VAT
